New Protocols and Important Information related to Dental Treatment during COVID-19

- Please visit our website (www.myspringdaledentist.com) and review the two downloadable forms [**1- Patient Screening Form** and **2- Informed Consent and Promise to Call**]
 - o Please print and sign these forms and email to our office at drp@hpdental.arcoxml.com before your appointment or make sure and bring them with you to your appointment

[Patient Care & Safety are our Top Priorities]

- We have gone to great lengths to try and prevent COVID-19 transmission in our office and many of these new infection control measures and protocols will be evident during your visit, including:
 - o Our office door will be kept locked for the safety of our patients and staff
 - o We will come out to get you after you have called to let us know that you have arrived
 - o We will confirm the screening questions with you, take your temperature, and provide you with a mask if needed
 - o We ask that you wear a mask at all times while in the office other than when in the treatment room or operatory
 - o You will be required to wash your hands before going to the treatment room and before leaving the treatment room
 - o We ask that you maintain social distancing of 6 feet from other guests in the office
 - o Additional protective gear to be worn by dentist and staff including face shields, gowns, and KN95 masks
 - o You will see the use of additional suction devices and equipment present to help mitigate aerosols created such as Isolites and rubber dams
 - o You will receive a follow up call, email, or text within 48-96 hours after treatment that DOES NEED your response so please stay in touch and reach out to us if you experience any symptoms or test positive for COVID-19 after your appointment.
